

Version 1.4.0

Updating to this version is recommended. New features, presentation of the questions and improvements have been implemented. Some BUGs have been fixed for optimal stability.

- 1.0 Matrix display of the questions (only for iPad)
- 2.0 Communication between the planner and the tester
- 3.0 Feedback overview with rating
- 4.0 Vois recording optimization
- 5.0 UX-UI review

1.0 Matrix display of the questions (only for iPad)

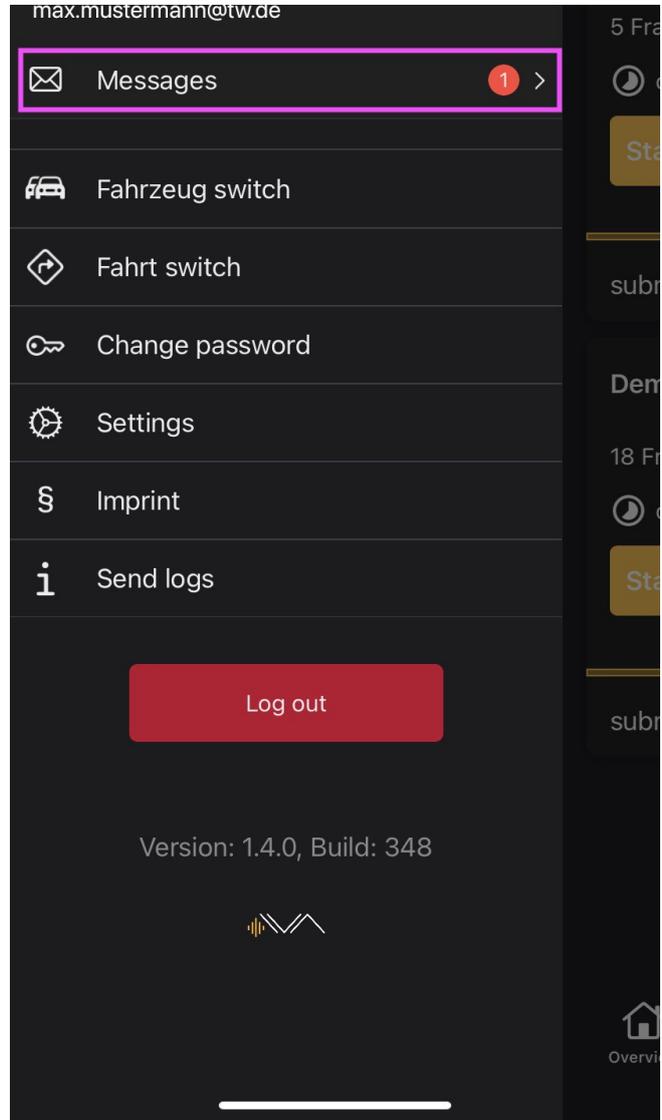

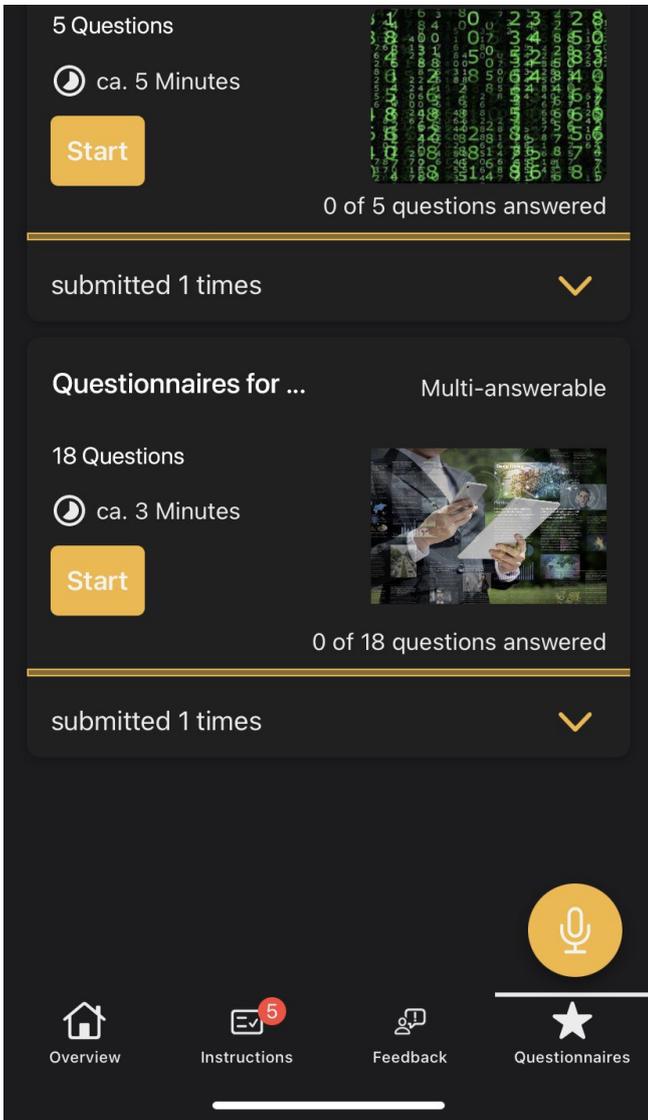

Until now, the depiction of matrix in questionnaires was only possible in form of a dropdown menu. In order to get a quick overview for the answering of matrix questions on the iPad, the depiction has been changed. Analogous to the Planner UI and Tester UI, the user can select answers easier and quicker.

The screenshot shows an iPad interface for a questionnaire. At the top, the status bar displays '12:00 Wed 1. Mar' and '27%' battery. The app title is 'Questionnaires with Matrix-Question' with '5 Questions' below it. A 'Back' button is on the left, and a trash icon is on the right. The user is identified as 'Tester Mustermann, Max'. The page is labeled 'This is the first Page' and 'Question 1 - 4'. The main content is 'Question 1', which includes two images of cars. Below the images is a matrix with 6 columns and 4 rows. The columns are labeled 'Column 1' through 'Column 6' with icons: a car, a car, a car with a seat, a car with a seat, a car with a seat, and a car with a seat. The rows are labeled 'Row 1' through 'Row 4'. A 'Next' button is at the bottom.

	Column 1	Column 2	Column 3	Column 4	Column 5	Column 6
Row 1	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Row 2	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Row 3	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Row 4	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

2.0 Communication between the planner and the tester

The app has a new feature: Messages with the planner. This allows the tester to receive a short message for a certain feedback and to reply to it. The communication can only be initiated by the planner and each message can only be answered once by the tester. It is therefore not a classic chat function.

message list and details

3.0 Feedback overview with rating

In the overview of feedbacks, the rating is displayed. It is shown in the form of a number and adapts to the scale that has been selected in the IVA Planner web application: emoticons, star rating or net promoter score. This gives an immediate overview of how the feedback was rated in different categories.
