

# 3.0 Making questions in questionnaires more visible

## UI revision: line adjustment

In dark mode, the questions were emphasised by a thicker dividing line.

Benchmarking\_Air Conditioning and Heating  
11 Fragen

Seite 2 Question 5 - 9

Are you able to start the vehicle without any complications? If no, please describe the occurring complications in detail.  
(mandatory)

Are the vehicle's windows visibly foggy or frozen at the beginning of the test drive?  
(mandatory)

☒ Yes

☐ No

Please press the Defog/Defrost button.

Please turn off the Recirculation if it's activated.

Please set the fan and the temperature to the highest setting and activate the A/C if you're defogging.

## UI revision: reference to unanswered questions

The handling of the questionnaires has been improved.

When changing pages and not all questions have been read, a message appears.

A question catalogue contains several pages with many questions. The viewing area in a device often only shows part of the questions. To minimise the risk that not all questions have been read when changing pages, a note has been added.

Revision #4
