Additional buttons in Reports

The screenshot shows the 'Feedback validation' interface in the Teamware application. The breadcrumb trail is: Evaluations > Test Status Entwurf vs. Freigegeben > Entwurf vs. Freigegeben 2 > Feedback validation. The user is logged in as 'Max Muster'. In the top right corner, there are three buttons: 'Reload' (orange), 'Create report' (black with a red box), and 'Simple report' (black with a red box). A grey arrow points to the 'Simple report' button. The main content area shows a table of feedback entries for 'Entwurf vs. Freigegeben 2'. The table has columns: Validated, Time, Tester, Category, and Rating. There are two entries in the table, both with a rating of 8. The 'Simple report' button is highlighted with a red box.

Validated	Time	Tester	Category	Rating
<input type="checkbox"/>	09/07/2022 11:20 am	Virginia Muster	Allgemein	8
<input type="checkbox"/>	05/23/2022 04:28 pm	Virginia Muster	Allgemein	8

In the feedback validation there is an additional button "Simple report" that takes you back to the previous screen. In addition, there is now a "Create report" button with which you can create a CSV or PDF file directly.

Feedback

Allgemein 2 von 2[[feedbacksCount]] of [[allFeedbacksCount]], with 0 validated, 1 completed

Fahrzeuge / Test	Description	Rating	Tester	Status	Validated	Actions
aCar ↓ Entwurf vs. Freigegeben 2	Lorem Ipsum	👍 8 / 10	Muster Max 09/07/2022 11:20 am	Draft		⋮
aCar ↓ Entwurf vs. Freigegeben 2	Lorem Ipsum	👍 8 / 10	Muster Max 05/23/2022 04:28 pm	Completed		⋮

In the advanced reports, there is now also the "Simple report" button, with which you can return to the previous screen.

Fixed bugs

FIRE-1111 Remove test object from test and add it back

- Bug: If you remove a test object from a test and add it to the test from the evaluation or the data pool, the current, new and changed attributes are not adopted. This also applies to the documents and the image on the test object.
- Solution: If a test object is added to a test, even if it was removed from the test shortly before, all current, new or changed attributes as well as documents and images are added. If a test object is changed in the data pool, the changes are now included in the test if the test object is removed and re-imported into the test.
