- Additional buttons in Reports
- Fixed bugs

Additional buttons in Reports

The screenshot shows the 'Feedback validation' interface. At the top right, there are three buttons: 'Reload', 'Create report', and 'Simple report'. The 'Create report' and 'Simple report' buttons are highlighted with a red rectangle. A grey arrow points from the text 'Additional buttons in Reports' to the 'Simple report' button.

Feedback for 'Entwurf vs. Freigegeben 2'

Validated	Time	Tester	Category	Rating
<input type="checkbox"/>	09/07/2022 11:20 am	Virginia Mueller	Allgemein	8
<input type="checkbox"/>	05/23/2022 04:28 pm	Virginia Mueller	Allgemein	8

In the feedback validation there is an additional button "Simple report" that takes you back to the previous screen. In addition, there is now a "Create report" button with which you can create a CSV or PDF file directly.

Entwurf vs. Freigegeben 2	Lorem Ipsum	8 / 10	Maximilian Freigegeben	Draft		
Entwurf vs. Freigegeben 2	Lorem Ipsum	8 / 10	Maximilian Freigegeben	Completed		

In the advanced reports, there is now also the "Simple report" button, with which you can return to the previous screen.

Fixed bugs

FIRE-1111 Remove test object from test and add it back

- Bug: If you remove a test object from a test and add it to the test from the evaluation or the data pool, the current, new and changed attributes are not adopted. This also applies to the documents and the image on the test object.
- Solution: If a test object is added to a test, even if it was removed from the test shortly before, all current, new or changed attributes as well as documents and images are added. If a test object is changed in the data pool, the changes are now included in the test if the test object is removed and re-imported into the test.
