Version 2.0-2023

- 1.0 Dynamic Excel reports
- 2.0 Communication with tester (part 2)
- 3.0 Report of a PDF file with images
- Bugs

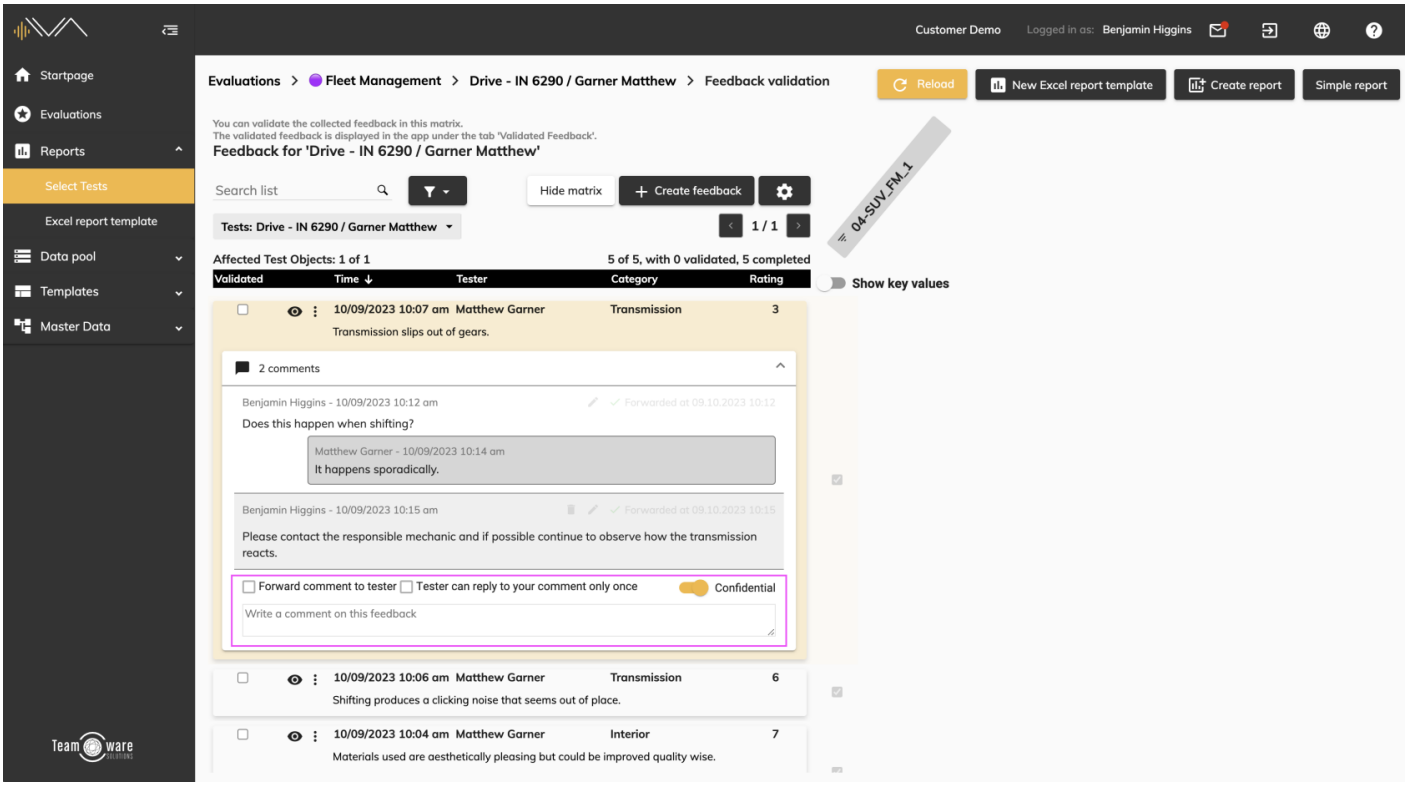

1.0 Dynamic Excel reports

A new functionality includes the creation of dynamic Excel report templates in Feedback. The templates include a link between the Excel file and the IVA. They enable automatic checking between Excel template and IVA data while facilitating targeted evaluation.

You can edit, overwrite, delete, and download them.

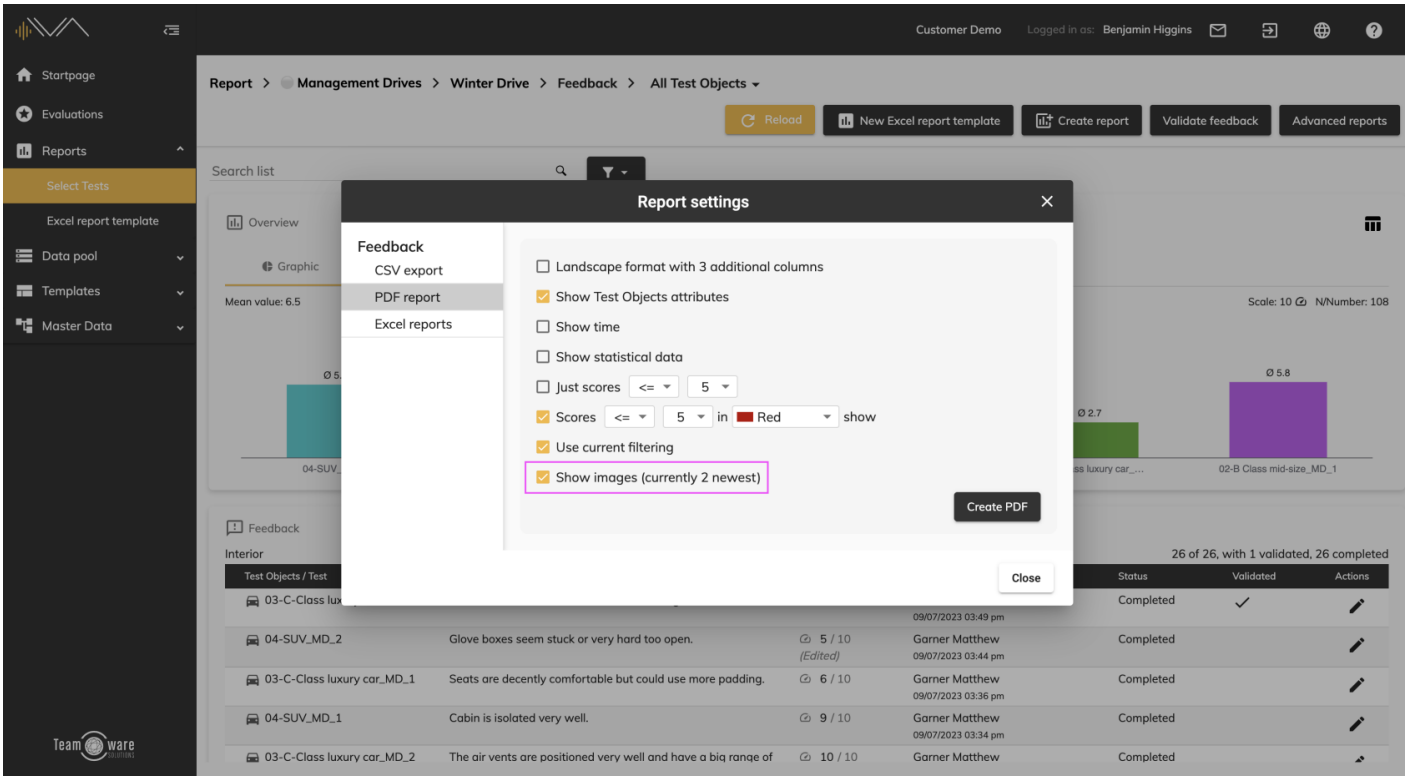

2.0 Communication with tester (part 2)

There are several ways to protect feedback comments (keep them confidential) or to continue a brief communication with the tester. This function can only be used when the feedback is completed. Communication takes place in the IVA planner (web application) and in the app.

Detailed description is here: LINK to the manual

3.0 Report of a PDF file with images

PDF reports are now visually supported in the report settings under Feedback. A maximum of two images can be displayed in a PDF file.

Bugs

The language change is easier and updated immediately.

The manual time in the newly created feedback is saved.

The handling of the columns in the feedback has been improved.
