# 1.0 Dynamic Excel reports

## Excel report templates

with

A new functionality includes the creation of dynamic Excel report templates in Feedback. The templates include a link between the Excel file and the IVA. They enable automatic checking between Excel template and IVA data while facilitating targeted evaluation.

You can edit, overwrite, delete, and download them.

# 2.0 Communication with tester (part 2)

The screenshot displays the 'Feedback validation' interface in the Teamware application. The breadcrumb trail at the top reads: Evaluations > Fleet Management > Drive - IN 6290 / Garner Matthew > Feedback validation. The interface includes a sidebar with navigation options: Startpage, Evaluations, Reports, Select Tests (highlighted), Excel report template, Data pool, Templates, and Master Data. The main content area shows a table of feedback entries. The first entry is highlighted, showing a comment from Benjamin Higgins and a response from Matthew Garner. A red box highlights the 'Forward comment to tester' checkbox and the 'Confidential' toggle. A red arrow points to the 'Forward comment to tester' checkbox.

Validated	Time	Tester	Category	Rating
<input type="checkbox"/>	10/09/2023 10:07 am	Matthew Garner	Transmission	3
<input type="checkbox"/>	10/09/2023 10:06 am	Matthew Garner	Transmission	6
<input type="checkbox"/>	10/09/2023 10:04 am	Matthew Garner	Interior	7

There are several ways to protect feedback comments (keep them confidential) or to continue a brief communication with the tester. This function can only be used when the feedback is completed. Communication takes place in the IVA planner (web application) and in the app.

# 3.0 Report of a PDF file with images

The screenshot displays the Teamware software interface. A 'Report settings' dialog box is open, showing the 'Feedback' tab. The 'PDF report' option is selected under the 'Feedback' section. The 'Show images (currently 2 newest)' checkbox is checked and highlighted with a pink box. The background shows a report overview with a bar chart and a table of test results.

Test Objects / Test	Feedback	Score	Time	Status	Validated	Actions

PDF reports are now visually supported in the report settings under Feedback. A maximum of two images can be displayed in a PDF file.

# Bugs

The language change is easier and updated immediately.

The manual time in the newly created feedback is saved.

The handling of the columns in the feedback has been improved.
