

Version 2.2-2023

- 1.0 Questionnaire series
- 2.0 Manual time applicable
- 3.0 Improvement
- 4.0 BUGs

1.0 Questionnaire series

The screenshot shows the 'Series of questionnaires' page in the Teamware application. The page has a dark sidebar on the left with navigation links: Startpage, Evaluations, Reports, Data pool, Templates, Questionnaires, Series of questionnaires (highlighted), Instruction sets, Attribute sets, Category sets, Answer options, and Master Data. The main content area has a header 'Series of questionnaires' with a search bar and a '+ Create new questionnaire serie' button. Below the header is a table with 4 rows of questionnaire series. The table has columns: Image, Title, Description, Questionnaires, Questions, Last update, and Actions. The data rows are:

Image	Title	Description	Questionnaires	Questions	Last update	Actions
	Benchmarking_General & Air Conditioning and Heating		2	21	10/19/2023	 
	Benchmarking_General & Comfort		2	15	10/19/2023	 
	Technical Development_General & Charging		2	16	10/19/2023	 
	Technical Development_General & Electrics		2	25	10/19/2023	 

You can now create and configure questionnaire series from several individual questionnaires.

In the future, you can quickly and easily put together different questionnaires and use them as often as you like in the specified order.

Detailed description can be found here: [Link to manual](#)

2.0 Manual time applicable

The screenshot shows the 'Edit feedback' modal in the Teamware application. The modal is titled 'Edit feedback' and has a close button (X) in the top right corner. It contains a rating scale from 1 to 10, with '6' selected. The scale is divided into four categories: Unacceptable (1-3), Critical (4-5), Improvable (6-7), and Commendable (8-10). Below the scale is a section for 'Category' with two options: 'Infotainment' and 'Apps'. There is a 'Tester / reviewer' field with the name 'Matthew Garner' and a 'Create as tester ...' button. A 'created' field shows the date and time '09/07/23 03:41 pm'. A 'manual time' field is highlighted with a red box and is currently empty. At the bottom right, there are 'Cancel' and 'Apply' buttons. The background shows a list of feedback items, with the selected item being 'The overhead lighting is bright without being unpleasant to look at.' by 'Matthew Garner' on '09/07/2023 02:51 pm'.

From now on you can set a “manual time” here

- create
- save and
- delete.

The manual time can also be changed, saved or deleted in an existing feedback. For example, you can correct a manual time from the tester.

3.0 Improvement

Delete comments

The screenshot displays the 'Feedback-Validierung' (Feedback Validation) interface in the Teamware application. The breadcrumb trail indicates the path: Evaluations > Management Drives > Winter Drive > Feedback-Validierung. The interface includes a sidebar with navigation options like 'Startseite', 'Evaluations', 'Auswertung', 'Datenpool', 'Vorlagen', and 'Stammdaten'. The main content area shows a list of feedback entries for 'Winter Drive'. One entry is highlighted, showing a comment by Benjamin Higgins dated 18.10.2023. A pink box highlights the 'Kommentar löschen' (Delete comment) button, which is accompanied by a trash icon. Other buttons like 'Matrix ausblenden', '+ Feedback anlegen', and 'Vertraulich' are also visible. The bottom of the interface shows the Teamware logo.

Recently, forwarded comments can be deleted.

To do this, open the respective comment tile of the feedback in which the comment to be deleted is located. To delete the comment, click on the “trash” icon and then save it.

From now on, the lines around input fields and dropdowns stand out better from the background.

4.0 BUGs

Filtering for PDF report

The filtering behavior in the PDF report has been revised and the filter function is adopted exactly in the PDF file.

Error message in Validate feedback

The error that appeared after processing feedback has been fixed. Saving is possible and runs smoothly under "Validate feedback" and further under "Add comment".
