

1.0 Questionnaire series

The screenshot shows the 'Series of questionnaires' page in the Teamware application. The left sidebar contains a navigation menu with items: Startpage, Evaluations, Reports, Data pool, Templates, Questionnaires, Series of questionnaires (highlighted), Instruction sets, Attribute sets, Category sets, Answer options, and Master Data. The main content area has a header 'Series of questionnaires' with a '+ Create new questionnaire serie' button. Below the header is a search bar and a 'Pro page: 25' dropdown. A table displays four questionnaire series, with columns for Image, Title, Description, Questionnaires, Questions, Last update, and Actions. The table shows 1 - 4 of 4 items.

Image	Title	Description	Questionnaires	Questions	Last update	Actions
	Benchmarking_General & Air Conditioning and Heating		2	21	10/19/2023	
	Benchmarking_General & Comfort		2	15	10/19/2023	
	Technical Development_General & Charging		2	16	10/19/2023	
	Technical Development_General & Electrics		2	25	10/19/2023	

You can now create and configure questionnaire series from several individual questionnaires.

In the future, you can quickly and easily put together different questionnaires and use them as often as you like in the specified order.
