

2.0 Manual time applicable

The screenshot displays the 'Edit feedback' interface. At the top, there's a navigation bar with 'Customer Demo' and 'Logged in as: Benjamin Higgins'. The left sidebar lists 'Startpage', 'Evaluations', 'Reports', 'Data pool', 'Templates', and 'Master Data'. The main content area shows the 'Edit feedback' modal. Inside the modal, there's a rating scale from 1 to 10, with '6' selected. Below the scale, there's an 'Acceptable' section, a 'Category' section with 'Infotainment' and 'Apps' options, a 'Tester / reviewer' section with 'Matthew Garner', a 'created' section with '09/07/23 03:41 pm', and a 'manual time' section with a text input field. At the bottom of the modal are 'Cancel' and 'Apply' buttons. The background shows a list of feedback items, including one from 'Matthew Garner' about 'Electrics' with the text 'The overhead lighting is bright without being unpleasant to look at.'

From now on you can set a “manual time” here

- create
- save and
- delete.

The manual time can also be changed, saved or deleted in an existing feedback. For example, you can correct a manual time from the tester.

Detailed description can be found here: [Link to manual](#)
