2.0 New Filter in the Reports select Tests

In the **Reports** menu and the **"Select Tests"** submenu, a new filter function has been introduced to simplify selection. From now on, you can sort by the following 7 criteria:

- **Start**
- **End**
- **Results for instructions available**
- **Results for feedback available**
- **Results for questionnaires catalogs available**
- **Questionnaires / Questionnaires series, even with no answer sets = 0**
- **Show archived**

At the end, you can click **"Reset to default"** to clear all filters.

Revision #8
