

# 2.0 New Filter in the Reports select Tests

In the **Reports** menu and the "**Select Tests**" submenu, a new filter function has been introduced to simplify selection. From now on, you can sort by the following 7 criteria:

- **Start**
- **End**
- **Results for instructions available**
- **Results for feedback available**
- **Results for questionnaires catalogs available**
- **Questionnaires / Questionnaires series, even with no answer sets = 0**
- **Show archived**

At the end, you can click "**Reset to default**" to clear all filters.

The screenshot shows the 'Report' interface with a sidebar on the left containing navigation options: Startpage, Evaluations, Reports (selected), Select Tests, Select Test Objects, Excel report templates, Data pool, Templates, Master data, Tester Web Application, and Booking Calendar. The main area displays a table of reports grouped by category: Fleet Management, Technical Development, and Management Drives. A filter dropdown menu is open over the 'Fleet Management' group, showing options: Search for, Start, End, Results available for instructions, Feedbacks available, Results available for questionnaires, Questionnaires / Questionnaire series, Show archived, and Reset to default. The dropdown also shows the date range 03/01/23 - 03/31/23.

Category	Report Name	Status	Period	Test objects	Instructions	Feedback	Questionnaires
Fleet Management	Drive - IN 4943 / Bourke Alexander	Published	01/01/23 - 12/31/23	1	0	4	0
	Drive - IN 6290 / Garner Matthew	Published		1	0	5	0
	Drive - IN 7483 / Bourke Alexander	Published		1	0	9	0
	Drive - IN 9732 / Lees Jodie	Published		1	0	11	0
