

# 3.0 BUGs

## Appearance of the Net Promoter Score

In future, the Net Promoter Score will also be displayed correctly with a longer description. The individual fields containing the rating can now have different widths depending on their descriptive text.

The screenshot shows the 'Function Test\_Charging' evaluation page. The left sidebar contains navigation links: Startpage, Evaluations (selected), Reports, Data pool, Templates, Master data, Tester Web Application, and Buchungskalender. The top header shows 'Customer Demo', 'Logged in as: Benjamin Higgins', and various icons. The main content area is titled 'Evaluations > Technical Development > Function Test\_Charging' and includes an 'Edit' button. Below the title, it shows 'Start 08/14/2023' and 'End 08/14/2023'. A 'Status of Test' section shows 'Stopped' with buttons to 'Publish', 'Stopped', 'Meeting break', and 'Complete'. A tabbed interface below shows 'Basic data', 'Attributes', 'Test Objects', 'Tester', 'Instructions', 'Feedback' (selected), and 'Questionnaires'. The 'Feedback' tab contains a 'Test-feedback configuration' section with a note: 'Test-feedback configuration. This configuration can be modified in the edit dialog.' Below this is a 'Feedback type' section with a table of 10 rating options, grouped into 'Unacceptable', 'Critical', 'Improvable', and 'Commendable'. To the right is a 'Feedback configuration' section with checkboxes for 'Allow audio', 'Allow photos and videos', 'Add GPS info', and 'Manual time'. At the bottom, a section titled 'The following categories are available in the app' lists 'Powertrain', 'General', 'Start & Stop', and 'Power Development' with their respective sub-category counts.

Unacceptable		Critical		Improvable		Commendable			
1	2	3	4	5	6	7	8	9	10

In the Web Tester it looks like this: [Link to the manual](#)
