## Appearance of the Net Promoter Score

In future, the Net Promoter Score will also be displayed correctly with a longer description. The individual fields containing the rating can now have different widths depending on their descriptive text.

The screenshot displays the Net Promoter Score (NPS) configuration interface. The top navigation bar shows the user is logged in as Benjamin Higgins. The main content area is titled 'Evaluations > Technical Development > Function Test\_Charging'. The 'Function Test\_Charging' section shows the status as 'Stopped' and provides options to change the status to 'Publish', 'Stopped', 'Meeting break', or 'Complete'. The 'Feedback type' section is highlighted with a pink box, showing a scale from 1 to 10 with labels: Unacceptable, Critical, Improvable, and Commendable. The 'Feedback configuration' section on the right includes checkboxes for 'Allow audio', 'Allow photos and videos', 'Add GPS info', and 'Manual time'. The bottom section lists available categories: Powertrain, General, Start & Stop, Power Development, and Gear Shift.

In the Web Tester it looks like this: [Link to the manual](#)
