Appearance of the Net Promoter Score

In future, the Net Promoter Score will also be displayed correctly with a longer description. The individual fields containing the rating can now have different widths depending on their descriptive text.

The screenshot shows the 'Function Test_Charging' configuration page in the Tester Web Application. The interface includes a sidebar with navigation options like Startpage, Evaluations, Reports, Data pool, Templates, Master data, Tester Web Application, and Buchungskalender. The main content area displays the configuration for the 'Function Test_Charging' evaluation, which is currently 'Stopped'. It shows the start and end dates (08/14/2023) and allows changing the status to 'Publish', 'Stopped', 'Meeting break', or 'Complete'. The 'Feedback' tab is active, showing a 'Feedback type' section with a rating scale from 1 to 10, categorized into 'Unacceptable', 'Critical', 'Improvable', and 'Commendable'. The 'Feedback configuration' section on the right includes checkboxes for 'Allow audio', 'Allow photos and videos', 'Add GPS info', and 'Manual time'. Below this, a list of available categories in the app is shown, including 'Powertrain', 'General', 'Start & Stop', 'Power Development', and 'Gear Shift'.

In the Web Tester it looks like this: [Link to the manual](#)
