

3.0 BUGs

Appearance of the Net Promoter Score

In future, the Net Promoter Score will also be displayed correctly with a longer description. The individual fields containing the rating can now have different widths depending on their descriptive text.

The screenshot shows the 'Function Test_Charging' configuration page in the Tester Web Application. The interface includes a sidebar with navigation options like Startpage, Evaluations, Reports, Data pool, Templates, Master data, Tester Web Application, and Buchungskalender. The main content area displays the configuration for 'Function Test_Charging', including start and end dates (08/14/2023), status (Stopped), and buttons to change status (Publish, Stopped, Meeting break, Complete). The 'Feedback' tab is active, showing a 'Feedback type' section with a rating scale from 1 to 10, categorized into Unacceptable, Critical, Improvable, and Commendable. The 'Feedback configuration' section includes checkboxes for 'Allow audio', 'Allow photos and videos', 'Add GPS info', and 'Manual time'. Below this, a list of available categories is shown, including Powertrain, General, Start & Stop, Power Development, and Gear Shift.
