

# 3.0 BUGs

## Appearance of the Net Promoter Score

In future, the Net Promoter Score will also be displayed correctly with a longer description. The individual fields containing the rating can now have different widths depending on their descriptive text.

The screenshot shows the 'Function Test\_Charging' evaluation configuration page. The interface includes a sidebar with navigation options like 'Startpage', 'Evaluations', 'Reports', 'Data pool', 'Templates', 'Master data', 'Tester Web Application', and 'Buchungskalender'. The main content area displays the evaluation details, including the status 'Stopped' and buttons to 'Publish', 'Meeting break', or 'Complete'. The 'Feedback' tab is active, showing a 'Feedback type' section with a rating scale from 1 to 10, categorized into 'Unacceptable', 'Critical', 'Improvable', and 'Commendable'. The 'Feedback configuration' section on the right allows users to enable features like 'Allow audio', 'Allow photos and videos', 'Add GPS info', and 'Manual time'. Below this, a list of available categories is shown, including 'Powertrain', 'General', 'Start & Stop', 'Power Development', and 'Gear Shift'.

In the Web Tester it looks like this: [Link to the manual](#)
