

3.0 New transition from evaluations to reports

In order to introduce easier handling and avoid possible disorientation, the direct link from evaluations to the reports of instructions, feedback and the questionnaires has been interrupted. The three additional tabs at the end of the tab bar with the icon “Reports” and “Instructions”, “Feedback” and “Questionnaires” have been removed.

The continuation to the reports works in three new places instead. In a test, go to the respective tab in the tab bar:

- **Instruction**
- **Feedback or**
- **Questionnaires.**

By clicking on the “**Validate feedback**” button, which is located in the “**Feedback**” tab to the right of the “**Assign category test object**” button, you can report the feedback.

It works in exactly the same way with the “**Instructions**”.

If you want to access the reports in the questionnaires, you must click on the “**Reports**” icon in the “**Actions**” column in the “**Questionnaires**” tab.

Search list

2 von 2

Image	Title ↑	Description	Questions	Duration (min)	Type	Multiple answers	Actions
	Benchmarking_Comfort		5		Catalog	Off	
	Benchmarking_General		10		Catalog	Off	

If the “**Validate feedback**” button or the “**Report**” icon are grayed out, this means that there are no evaluations available.
