

3.0 Select to tests objects

The screenshot shows the 'Report' section of the Teamware application. The left sidebar contains navigation links: Startpage, Evaluations, Reports (expanded), Select Tests, Select Test Objects (highlighted), Excel report templates, Data pool, Templates, and Master Data. The main content area displays a table of test objects with columns for Image / Test object, Test object name, Key value, Results, and Action. The Results column includes buttons for Instructions, Feedback, and Questionnaires, each showing a count. A search bar and a filter icon are located above the table.

An alternative overview of the evaluation was recently implemented, which allows all results to be sorted according to the existing test objects. The new view can be accessed via the navigation bar on the left under the menu item “Evaluation” -> “Select Test Objects”.

Via the respective result tile of a test object, you can access the reports

- instructions
- feedback
- questionnaires

that are assigned to the test object.
