Evaluations – Feedback status „draft“ and „completed“

From now on you’ll be given a status overview for all synchronized feedbacks.

All feedbacks with the „draft” status aren’t yet completed by testers and in the list will be displayed as lightly greyed out: These feedbacks can only be viewed and via the planner web application be given comments on.

All feedbacks with the „completed“ status cannot be edited by the testers anymore: You can edit and delete those feedbacks or leave comments via the planner web application.
