

Evaluations – Feedback status „draft“ and „completed“

From now on you'll be given a status overview for all synchronized feedbacks.

All feedbacks with the „draft“ status aren't yet completed by testers and in the list will be displayed as lightly greyed out: These feedbacks can only be viewed and via the planner web application be given comments on.

The screenshot displays the 'Feedback-Validierung' (Feedback Validation) interface for 'Test2'. The interface is divided into a sidebar on the left and a main content area. The sidebar contains navigation links: 'Startseite', 'Erprobungen', 'Auswertung' (highlighted), 'Datenpool', 'Vorlagen', 'Stammdaten', and 'Administration'. The main content area shows a list of feedback entries for 'Test2'. The list has columns for 'Validiert', 'Zeitpunkt', 'Tester', 'Kategorie', 'Bewert.', 'Maßname', and 'Verantwortlich'. A red box highlights three entries: 'Allgemein' (5 points), 'Test gps' (1 point), and 'Vollelektrisch' (8 points). The 'Vollelektrisch' entry is highlighted in yellow. The interface also includes a search bar, a 'Matrix ausblenden' button, a '+ Feedback anlegen' button, and a '1 / 3' indicator. On the right side, there are three vehicle models listed: 'Audi Q5 5 line TDI q...', 'BMW X5 xDrive40d...', and 'Audi Q5 5 line TDI q...'. The top right corner shows the user is logged in as 'Natalia Roth'.

All feedbacks with the „completed“ status cannot be edited by the testers anymore: You can edit and delete those feedbacks or leave comments via the planner web application.
