

Feedback validation - Displaying affected vehicles

The screenshot shows a web application interface for feedback validation. The main content area is titled 'Auswertung > Evaluation > Test > Feedback-Validierung'. Below the title, there is a search bar and a button 'Matrix ausblenden'. A red box highlights the text 'Betroffene Fahrzeuge: 3 von 3'. Below this, there is a table with the following columns: Validiert, Zeitpunkt, Manueller Zeitpunkt, Tester, Kategorie, Bewertung, Datum-Bsp, and Auswahl-Bsp. The table contains three rows of feedback entries. The first row is checked and has a rating of 10/10. The second row is unchecked and has a rating of 2/10. The third row is unchecked and has a rating of 1/10. To the right of the table, there are three filters for vehicle models: Audi e-tron advance..., BMW 840i Coupé, and BMW 840i Coupé.

Validiert	Zeitpunkt	Manueller Zeitpunkt	Tester	Kategorie	Bewertung	Datum-Bsp	Auswahl-Bsp	Schlüsselwerte einblenden		
<input checked="" type="checkbox"/>	15.02.20 15:02	16.02.20 01:02		Klima	10/10	11.03.2021	Auswahl 1	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	15.02.20 14:02			Sitze	2/10			<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
<input type="checkbox"/>	15.02.20 15:32			Ergonomie	1/10			<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

You are given a clear display of the tester's feedback and can immediately identify which and how many vehicles are affected by it.
