

# 2.0 Feedback Report erstellen

The screenshot displays the 'Auswertung > Freies Feedback' section of the Teamware interface. The sidebar on the left contains navigation links: Startseite, Evaluationen, Auswertung (selected), Nach Tests, Excel-Reportvorlagen, Datenpool, Vorlagen, Stammdaten, Attribute, Kategorien, and Tester. The main panel is divided into several sections:

- Auswahl:** A filter menu with 'Evaluationen' (Fleet Management, Technical Development, Management Drives, Benchmarking Tests) and 'Tests' (Alle Tests, Winter Drive, Summer Drive, Function Test\_Electrics, Function Test\_Powertrain).
- Testobjekte:** A list of test objects with checkboxes, including '02-B Class mid-size\_MD\_1', '03-C-Class luxury car\_MD\_1', '03-C-Class luxury car\_MD\_2', '03-C-Class luxury car\_MD\_3', '04-SUV\_MD\_1', '04-SUV\_MD\_2', and '08-Truck\_TD\_1'.
- Feedback:** A table showing feedback for 'Interior' tests. The table has columns for Testobjekte / Test, Beschreibung, Bewertung, Tester, Status, Validiert, and Aktionen. It shows three entries for '04-SUV\_MD\_2 Winter Drive' and '02-B Class mid-size\_MD\_1'.

A bar chart titled 'Mittelwert: 6.5' shows average scores for different test objects: 04-SUV\_MD\_2 (5.4), 04-SUV\_MD\_1 (7.5), 03-C-Class... (6.7), 03-C-Class... (9.3), 03-C-Class... (2.8), and 02-B Clas... (5.7). The chart is labeled 'Skala: 10' and 'N/Anzahl: 96'.

Ab jetzt ist es möglich in der Feedback-Auswertung eines Tests über „erweiterte Auswertung“, sowie bei „Feedback validieren“ auch bei mehreren ausgewählten Tests den Button „**Report erstellen**“ zu klicken und so CSV- oder Excel-Reports zu erstellen.

Revision #7
