

4.0 BUGs

Fahrgestellnummer wird richtig angezeigt.

In der "Auswertung" und "Feedback validieren", wenn der Toggle "Matrix" eingeschaltet ist, wird ab jetzt der komplette Schlüsselwert angezeigt.

The screenshot shows the 'Auswertung' (Evaluation) interface. The sidebar on the left contains navigation links: Startseite, Evaluations, Auswertung, Nach Tests, Nach Test Objects, Excel-Reportvorlagen, Datenpool, Vorlagen, Stammdaten, Tester-Webanwendung, and Buchungskalender. The main content area is titled 'Auswertung' and shows a breadcrumb trail: 'Nach Tests > Management Drives > Winter Drive > Feedback'. Below the breadcrumb is a search bar and a filter dropdown. A list of test objects is displayed, including 'Customer Demo', 'Management Drives', 'Summer Drive', and 'Winter Drive'. A 'Matrix' toggle is visible, set to 'on'. Below the toggle, a table displays test results for various vehicles, including '02-B-Class mid-size MD-1', '03-C-Class luxury car MD-1', '03-C-Class luxury car MD-2', '04-SUV MD-1', '04-SUV MD-2', and '05-Sports car MD-2'. The table has columns for 'Characteristics', 'Parking assistance', 'Calendar Week', 'Priority', and 'Safety-re'. The 'Matrix' toggle is set to 'on', and the table shows the complete key value for each vehicle.

Revision #5
