

11.3 Selecting an alternative reviewer

Within a questionnaire, an alternative reviewer can be selected to complete the questionnaire instead of the logged-in user.

The screenshot shows a mobile application interface for a questionnaire. At the top, the status bar displays the time 13:24 and signal/battery icons. The app header includes a yellow 'Back' button, the title 'Title of Questionnaire 2' with '21 Questions' below it, and a trash icon. A pink rectangular box highlights the 'Tester' section, which contains a user icon, the name 'Mustermann, Max', and a pencil icon for editing. Below this, the interface shows 'Page 1' and 'Question 1 - 7'. The first question is a 'Radiobutton question ?' with five options: 'Option A', 'Option B', 'Option C', 'Option D', and 'Sonstiges'. Each option is preceded by an unselected radio button. Below the question list, there are six more questions labeled 'Question 2?' through 'Question 6?', each with a yellow chevron icon to its right. At the bottom, a yellow 'Next' button is visible.
