Share iPad Analytics
Analytics Data
Help Apple improve its products and services by automatically sending daily diagnostic and usage data. Data may include location information. Analytics uses wireless data. About Analytics & Privacy...
4
Share With App Developers
Help app developers improve their apps by allowing Apple to share crash data as well as statistics about how you use their apps with them. About App Analytics & Privacy...
Improve Siri & Dictation
Help improve Siri and Dictation by allowing Apple to store and review audio of your Siri and Dictation interactions from this device. About Improve Siri and Dictation & Privacy...
Share iCloud Analytics
Help Apple improve its products and services, including Siri and other intelligent features, by allowing analytics of usage and data from your iCloud account. About iCloud Analytics & Privacy...

With the help of the analysis data from your device, for example information on system errors, we can constantly improve IVA and identify explicit incorrect behavior of the app. To share your device's analytics data with us, first open your Apple device's settings.

1. Tap on "Privacy" in the left column
2. Tap on "Analytics & Improvements" in the right column
3. Activate the toggle "Share iPad Analytics" in the right column
4. Activate the toggle "Share With App Developers" in the right column
