

First steps

- Choose your vehicle
- Create feedback

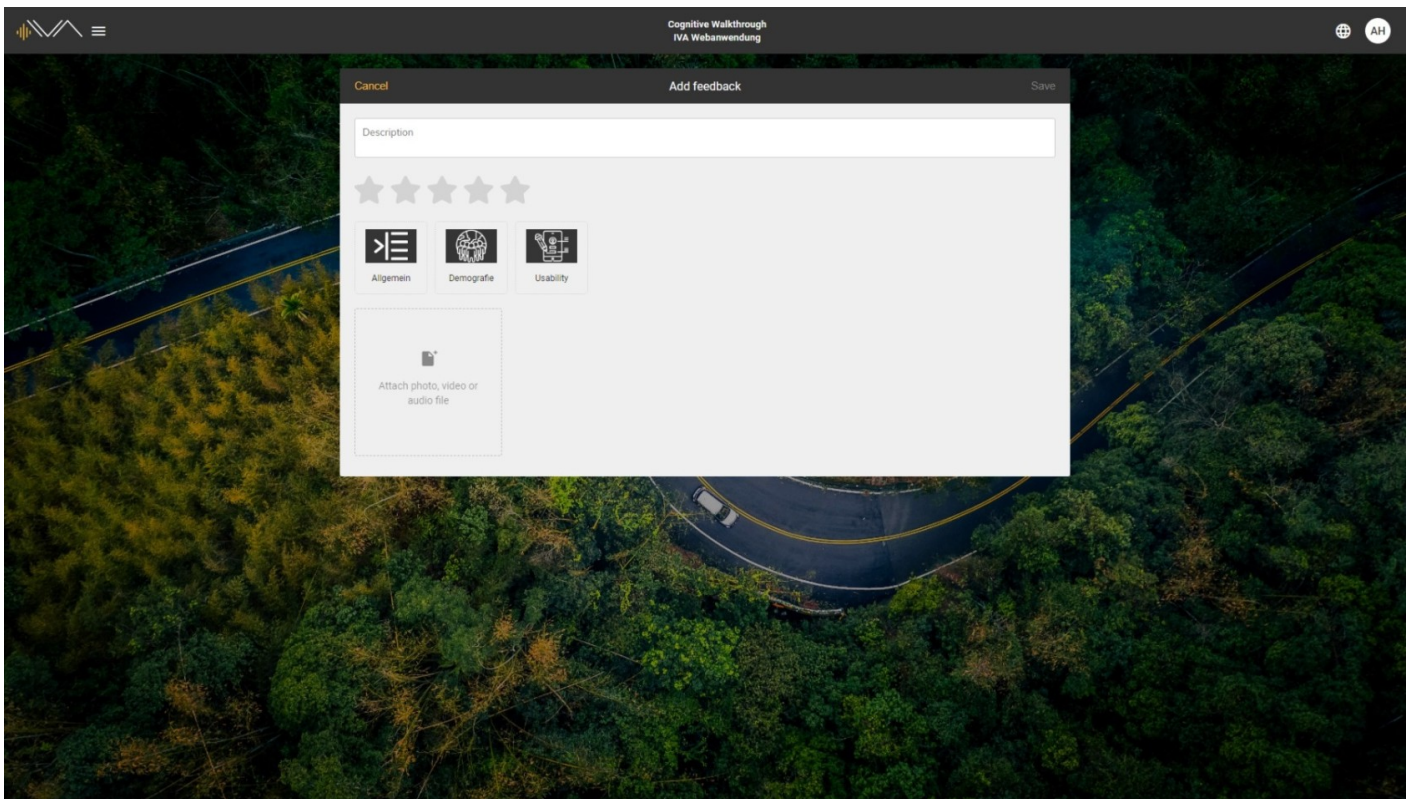

Choose your vehicle

To select a vehicle, select the appropriate evaluation and test, if applicable. Then select your vehicle. You will see an overview of your vehicle. Click on "Feedback" to edit your complaints or

create new feedback.

Create feedback

The screenshot shows a web application interface with a dark header. The header contains a logo on the left, the text "Cognitive Walkthrough IVA Webanwendung" in the center, and a globe icon and a user profile icon (labeled "AH") on the right. A modal dialog box titled "Add feedback" is open in the center. The dialog has a "Cancel" button on the top left and a "Save" button on the top right. Inside the dialog, there is a text input field labeled "Description". Below the input field is a row of five stars for rating. Under the stars are three category buttons: "Allgemein" (with a list icon), "Demografie" (with a person icon), and "Usability" (with a hand icon). At the bottom of the dialog is a dashed box containing a file icon and the text "Attach photo, video or audio file". The background of the application is an aerial view of a road winding through a dense forest.

In the overview you can see the feedback you have already created. You can edit your feedback by clicking on the entry or add a new one using the "+" button. To do this, give your feedback in the "comment" field, rate the complaint and select a suitable category. Photo, video or audio files can be attached in the lower area. Just click on the tile and select from your computer. You can add a GPS position or a time or choose another reviewer via "+ extras".
