

# Create feedback

The screenshot shows a web application interface for creating feedback. The background is an aerial view of a road winding through a dense forest. Overlaid on this is a modal dialog box titled "Add feedback". The dialog has a "Cancel" button on the top left and a "Save" button on the top right. Inside the dialog, there is a text input field labeled "Description". Below the text field is a row of five stars for rating. Under the stars are three buttons with icons and labels: "Allgemein" (General), "Demografie" (Demographics), and "Usability". At the bottom of the dialog is a section for attaching files, with a camera icon and the text "Attach photo, video or audio file".

In the overview you can see the feedback you have already created. You can edit your feedback by clicking on the entry or add a new one using the "+" button. To do this, give your feedback in the "comment" field, rate the complaint and select a suitable category. Photo, video or audio files can be attached in the lower area. Just click on the tile and select from your computer. You can add a GPS position or a time or choose another reviewer via "+ extras".
