

Create feedback

The screenshot shows a web application interface for creating feedback. The background is an aerial view of a road winding through a dense forest. Overlaid on this is a modal dialog box titled "Add feedback". The dialog has a dark header bar with "Cancel" on the left, "Add feedback" in the center, and "Save" on the right. Below the header, there is a text input field labeled "Description". Underneath the text field is a row of five empty star icons for rating. Below the stars are three square buttons with icons and labels: "Allgemein" (with a list icon), "Demografie" (with a person icon), and "Usability" (with a gear icon). At the bottom of the dialog is a dashed rectangular box containing a small file icon and the text "Attach photo, video or audio file".

In the overview you can see the feedback you have already created. You can edit your feedback by clicking on the entry or add a new one using the "+" button. To do this, give your feedback in the "comment" field, rate the complaint and select a suitable category. Photo, video or audio files can be attached in the lower area. Just click on the tile and select from your computer. You can add a GPS position or a time or choose another reviewer via "+ extras".
