

Create feedback

The screenshot shows the 'Add feedback' dialog box in the 'Cognitive Walkthrough IVA Webanwendung'. The dialog is centered over an aerial photograph of a road winding through a dense forest. The dialog has a dark header with 'Cancel' on the left, 'Add feedback' in the center, and 'Save' on the right. Below the header is a text input field labeled 'Description'. Underneath the text field is a row of five empty star icons for rating. Below the stars are three category buttons: 'Allgemein' (General), 'Demografie' (Demographics), and 'Usability'. At the bottom is a section for attaching files, labeled 'Attach photo, video or audio file', with a camera icon and a dashed border indicating where a file can be dropped.

In the overview you can see the feedback you have already created. You can edit your feedback by clicking on the entry or add a new one using the "+" button. To do this, give your feedback in the "comment" field, rate the complaint and select a suitable category. Photo, video or audio files can be attached in the lower area. Just click on the tile and select from your computer. You can add a GPS position or a time or choose another reviewer via "+ extras".
