# How do I assign feedback to other test objects?

First you need to navigate to the appropriate menu item. To do this, click on Evaluation->Select Tests in the left navigation bar and click on the relevant test under the relevant evaluation. Now you can select the desired test object and click on the "Feedback" tile. You will now be taken to a new page. Click on the "Validate feedback" button in the upper right corner. You will now be taken to a new page.

Then, in the matrix next to the table, click on the checkbox in the row of the feedback and in the column of the test object to which you want to assign the feedback.

When you're done, don't forget to hit the save button.
